1. Applicant's election of claims 1-31 and 43-52 in the reply filed on 11/08/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 32-42 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11/08/05.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 9-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Xandria Collection 2000.

The Xandria Collection brochure, page 6, discloses a device (The Power House) that includes what is considered to be a distally disposed "phallic" portion that contains a vibrator and an attached loop portion that has an opening and a controller to operate the vibrator.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3735

6. Claims 43-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 43 claims a distal portion having a retaining means however there is no function associated with the means and no language directed to what the retaining means is actually retaining. All that is claimed is a loop and a retaining means but the claim fails to recite what is retained, i.e. retaining the loop together, retaining something to the loop, etc.

7. Claims 19-31 are allowed.

8. Claims 6-8, 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
